PROFESSIONAL SUMMARY

Master of Data Science graduate from Monash University (June 2026), with hands-on experience building clinical AI pipelines, deploying full-stack AI applications, and leading a 2,000+ member student society. Conducted research in collaboration with Monash University and Alfred Health on AI-assisted cancer treatment prediction, serving as the key interface between clinical information and technical systems, translating complex data and findings into actionable insights for medical professionals. I bring 4+ years of product development experience from a tech organisation, with a consistent track record of bridging technical and non-technical teams across engineering, product, and business functions. I combine analytical depth in Python, ML, AI, and cloud with strong communication, stakeholder management, and project-delivery skills, with a particular interest in applying data and AI to understand customer behaviour, optimise business outcomes, and drive measurable impact across the value chain.

WORK EXPERIENCE

Think & Learn Pvt. Ltd. - BYJU'S

Bengaluru, India

Assistant Manager

Sep 2023 - Jan 2024

- Led delivery across 2 flagship digital product lines by gathering cross-functional requirements, defining project scope, and coordinating product, engineering, design, and QA teams to ensure structured, on-time delivery.
- Partnered with product, data, and engineering stakeholders to analyse business requirements, manage competing priorities, and align delivery across multiple concurrent workstreams.

Team Lead

Jan 2022 - Aug 2023

- Translated business and user requirements into actionable delivery plans across design, content, and engineering functions for flagship digital product lines (Live Classes & Learning App).
- Reduced turnaround time by 25% through process analysis and workflow redesign; established user feedback loops to surface data-driven insights that directly informed product decisions.

Senior Associate

Oct 2020 - Dec 2021

- Managed closure of 3 content development projects and led QA across 100+ assets, applying quality frameworks and delivery standards to ensure compliance and business timelines.

Associate

Jul 2019 - Sep 2020

- Developed 30+ educational scripts for large-scale digital learning products, translating curriculum requirements into structured content formats and reviewing materials for alignment and quality.

RESEARCH & PROJECTS

AI-Assisted Cancer Treatment Response Prediction | *Minor Thesis*

Jun 2025 – Jun 2026

- Partnered with clinicians at Alfred Health and researchers at Monash University to develop an AI-powered decision-support tool for oncology, scoping the clinical problem, designing the analytical approach, and delivering a model to support more accurate, data-driven treatment decisions.
- Acted as the primary bridge between clinical and technical teams, translating medical requirements into model specifications, interpreting outputs in clinical context, and communicating complex AI findings as clear, actionable insights for medical professionals.
- Surfaced CT texture features as the strongest discriminators between patient classes - a finding that directly informs treatment decisions and demonstrates how structured data analysis can drive measurable outcomes.

Resume Tailor | resume-tailor-omega-rosy.vercel.app

May 2026 - Present

- Built and deployed a full-stack AI-powered web application that tailors resumes to specific job descriptions using Claude API and Cursor, reducing manual effort in the job application process.
- Engineered a FastAPI backend and React (Vite) frontend, handling API integration, prompt design, and end-to-end deployment on Vercel.

EDUCATION

Monash University

Clayton, VIC

Master of Data Science | WAM: 75.0

Jul 2024 - Jun 2026

SRM Institute of Science and Technology (SRMIST)

Chennai, India

Bachelor of Technology, Automobile Engineering | First Class with Distinction - 77.52%

Jul 2015 - May 2019

LEADERSHIP EXPERIENCE

Monash Data Science & AI Society (MDAS)

Monash University

President

Jan 2026 - Jun 2026

- Led a 6-person executive team and a 35+ person working committee, overseeing a 2,000+ member society, driving strategic direction, innovation, and industry partnerships with organisations including Accenture, Google, and AWS.
- Co-organised a two-day AI Bootcamp attended by 250+ students, featuring industry representatives from Telstra, AWS, REA Group, EY, and Accenture Technologies.
- Delivered “Women in IT: Unfiltered & Unstoppable,” a flagship panel event featuring 5 senior women industry leaders across CXO to mid-level roles.
- Managed society budget and operational reporting, coordinating across university administration, the Graduate Students Association, faculty partners, and external stakeholders to ensure smooth functioning.

Vice President

May 2025 - Dec 2025

- Coordinated two flagship society events - DataWaves 2025 (industry panel, 100+ students) and the Inter-University Datathon (multi-day competition, 200+ participants across Sydney and Melbourne), managing speakers, industry partners, cross-university teams, and end-to-end logistics.
- Supported the President and executive committee on key leadership decisions, including team management, operational planning, and society governance.

Study Melbourne Leadership Labs - 4Impact Challenge

Melbourne, VIC

Team Lead

Mar 2025 - May 2025

- Led a cross-cultural team of 4 through a 10-week startup-style accelerator focused on real-world challenges aligned with the UN Sustainable Development Goals.
- Developed and pitched a solution to support students in Victoria with low English confidence, aimed at improving communication skills and reducing language-related barriers.

TECHNICAL SKILLS

Python · SQL · PyTorch · scikit-learn · AWS · FastAPI · React · pandas · NumPy · PowerBI · Tableau · Git · Bash · Matplotlib · Jupyter · Cursor · Claude Code · Canva

CERTIFICATIONS

AWS Certified Cloud Practitioner (CLF-C02), Jul 2026

Claude Code 101, Anthropic, Jun 2026

Advanced Business Analytics, BACentric Technologies, Feb 2024

VOLUNTEERING

Our Village - Monash University Volunteer Program

Clayton, VIC

Volunteer

Sep 2024 - May 2026

- Supported the warehouse that operates for charities - St. Kilda Mums, Geelong Mums, and Eureka Mums.
- Assisted with sorting, packing, quality checks, and operational reporting.

Toolbox India - Medhavi Association

Remote

Volunteer

Sep 2023 - Mar 2024

- Developed fundraising pitches and presentations that contributed to the NPO securing 500,000 INR in funding.
- Analysed social media data and co-developed a content strategy to expand the organisation’s digital reach.
